STEVENS
"Where service is a commitment"

Family Business Since 1830

The Stevens Company has been a pillar in the Canadian healthcare community since 1874 and stands as one of the largest medical supply distributors in Canada today. Originally founded in 1830 in London, England, the company is still owned and operated by the Stevens family, now in their 6th generation. Over the decades, Stevens has continued to grow and today has six distribution centres across Canada in Toronto, Vancouver, Calgary, Winnipeg, Halifax, and most recently, Montréal. Stevens has an experienced staff, including 50 sales representatives and product specialists to serve our customers.

Stevens—where service is a commitment.

Welch Allyn Spot Vital Signs® Device

- Vital signs in seconds, with hospital-grade technology that is easy to use, accurate, and affordable
- Measures non-invasive blood pressure (NIBP), pulse rate, temperature and SpO_2 in about 30 seconds
- Wireless (IR) connectivity to Electronic Health Records
- Lightweight and portable with a variety of mounting options

#111-42N0B-E1
NIBP and Nellcor pulse oximetry

#111-42NTB-E1
NIBP, Nellcor pulse oximetry, and SureTemp® thermometer

©†

Welch Allyn Connex® Vital Signs Monitor

- Significantly increases vital signs accuracy
- Decreases the time it takes to post to EMR
- Patient modifiers and qualifiers (e.g., body position, pain, and respiration) can be documented on the device
- Eliminates the need for a bedside computer, or to locate a PC and transcribe data later
- Automated, configurable deletion of patient information
- Rules to check record completeness before saving
- Allows the monitor to act as a true mobile device
- Works with your current wireless network to make integration simple and seamless
- Delivers up-to-date patient demographics, ensuring proper ID at the point of care

#111-63NXXX-B
NIBP and Nellcor pulse oximetry

#111-63NTXX-B
NIBP, Nellcor pulse oximetry, and SureTemp® Plus thermometer

Edan M3 Vital Signs Monitor

- Portable and lightweight
- Large high resolution colour TFT display
- Flexible configurations to meet different clinical needs
- Auto/Manual/Continuous/ Average BP mode
- Pitch tone
- Real-time measurements display
- Trend table and trend graphs
- Long working-time on battery only
- USB flash disk support
- Barcode scanner support
- Nurse call function
- LAN/Wi-Fi(optional) connections
- Bi-directional communication with the MFM-CMS central station
- HL7 support via XML files or MFM-CMS central station
- Data management via PatientCare Viewer software (optional)

#759-302112584

Edan M3A Vital Signs Monitor

- Portable and lightweight
- LED numeric display with a colour TFT screen
- Flexible configurations to meet different clinical needs
- Auto/Manual/Continuous/ Average BP mode
- Pitch tone
- Real-time measurements display
- Trend table and trend graphs
- Extremely long working-time on battery only
- Barcode scanner support (optional)
- Nurse call function
- LAN/Wi-Fi connections (optional)
- Bi-directional communication with the MFM-CMS central station (optional)
- Data management via PatientCare Viewer software (optional)

EMR Solutions

Connectivity solutions that work.

Productivity gains and improvements in patient care are just a few of the benefits that can result from implementing the IQ Digital Diagnostic System. You'll have the ability to provide more streamlined diagnostic procedures for your patients and a more efficient workflow for your practice.

IQvitals®

Heavy Duty Eye Level Digital Scale

- Integral digital height rod
- Capacity: 600lb / 272kg
- Resolution: 0.2lb / 0.1kg
- EMR connectivity via USB
- Functions: LB / KG conversion, LB /KG lock out, Body Mass Index (BMI), Zero Out / Tare, Hold / Release, Auto Zero, Auto Off
- 2-year limited warranty

#130-600KL

Midmark IQ Digital Diagnostic Products

- Lightweight and portable
- Intuitive user interface
- Designed to work in most IT environments

- Connect seamlessly with select EHR/EMR or use as a standalone solution with IQmanager™

IQecg™

IQholter™

IQspiro™

Aaron 940™ High Frequency Desiccator

- Digital error detection
- Handpiece buttons designed for superior tactile feel and comfort
- 40W of power. Higher resolution in bi-polar mode. Increase and decrease in 0.1W increments from 0 to 10W

What's in the box:
- 887-A940 unit and power cord with handpiece
- 50 blunt and 50 sharp non-sterile disposable dermal tips
- Wall mount kit

#887-A940

Aaron 1250™ High Frequency Electrosurgical Generator

- Five output modes: Cut (120W), Blend (90W), Coagulation (Pinpoint 80W), Fulguration (Spray 40W), Bipolar (30W)
- Rotary power-control dial provides smooth, rapid power adjustments
- Audible tones
- BovieNEM™ (Neutral Electrode Monitoring)

#887-A1250-U

Aaron® High-Temperature Cauteries

#887-AA01	fine tip	**sold as each**

The Biggest Advancement In Otoscopes You've Ever Seen

HEINE BETA 400© OTOSCOPE

DURABILITY

> **Unmatched Guarantee:** With the highest quality product, you would expect the best warranty. The BETA 400 comes with a 10 Year Parts and Labor Guarantee.

> **The Best Materials:** The BETA 400 features scratch resistant glass optics, ensuring a clear views for the lifetime of the instrument.

> **Metal Housing:** The all metal housing of the BETA 400 is built to last a lifetime.

PERFORMANCE

> **Unmatched 4.2X magnification:** The BETA 400 offers 4.2 x magnification, 31-68% greater than the most commonly used Otoscopes, for more efficient and more accurate exams.

> **Precision HEINE Optics:** 4.2x magnification combined with optical grade glass guarantees the most crisp, high-resolution images for providing the most diagnostic information.

> **Exceptional Focal Range:** Optics are specially designed to provide clear focused views in any position without the need for cumbersome focusing mechanisms.

FUNCTION

> **Practical Design:** The flip up viewing window on the BETA 400 can be operated with one hand allowing for use of instruments with the Otoscope in place.

> **Integrated Insufflation Port:** The convenient insufflation port allows for testing of tympanic membrane mobility.

> **Compatible with Competitive Handles:** The BETA 400 is also available with competitive twist lock connection for compatibility with a competitive handle system.

Ordering Information:

Heine Gamma G7® Aneroid Hand Sphygmomanometer

- Shock proof
- Latex-free
- Exclusive pressure-distribution system
- Pressure-proof manometer
- Micro-filter—protects valve and manometer
- 56mm diameter black-on-white scale is easy to read
- Exclusive air-release valve
- Light alloy, adjustable spoon, for both right- or left-handed operation
- 10-year warranty
- Complete with adult cuff
- Comes in a zippered pouch

#799-M-000.09.232

Aneroid Wall Sphygmomanometer Heine Gamma XXL LF

- Oversized 130mm diameter scale. Can be pivoted for clear, easy reading from any angle
- Latex-free
- 10-year warranty
- Complete with adult cuff

#799-M-000.09.323

Omron IntelliSense® Digital Blood Pressure Monitor

- IntelliSense® technology provides automatic cuff inflation, eliminating any need to preset inflation levels or adjust calibration
- Average mode measures up to three readings and averages the total, for a more accurate measurement
- Large, easy-to-read display for more ergometric use
- Includes four cuff sizes for arm circumference range of 17cm–50cm (7"–20")
- 5-year limited warranty

ADC ADview™ Modular Diagnostic Station

- An automated BP monitor that measures systolic and diastolic pressure, pulse rate and MAP in about 30 seconds using the oscillometric method
- A temperature module using Kendall's Filac™ Fastemp™ technology that provides an oral or axillary temperature in about 10 seconds. Built in storage well for the probe and box of 20 disposable probe covers
- An SpO_2 module that features industry leading Nellcor compatible technology for accurate readings in about 10 seconds
- Optional EMR (electronic medical records) with Bluetooth® connectivity for wireless integration to your computer system

#334-9000BP	BP Device with Rechargeable Battery
#334-9000BPTO	BP Device with Temp, Rechargeable Battery
#334-9000BPS	BP Device with SpO_2, Rechargeable Battery
#334-9000BPSTO	BP Device with Temp, SpO_2 and Rechargeable Battery

Huntleigh Dopplex® ABIlity Unit

Reasons why you should have the ABIlity:

- **Rapid bi-lateral ABI measurement in 3 minutes**—doppler based ABI typically takes 30 minutes; simultaneous measurements reduce time
- **Extremely easy to use and fully automatic**—minimal training required
- **No need to rest patient for 15 minutes**—reduces total test time
- **ABI can now be undertaken by healthcare support staff**—makes the measurement more cost effective
- **Automatic interpretation of ABI**—reduces operator error
- **Accurate reproducible results**—clinically proven by recent studies

#684-DA100PB

Huntleigh Sonicaid™ D920 Fetal Doppler

- High-sensitivity ultrasound for improved ease of use
- 2MHz waterproof transducer suitable for use in a water birthing environment
- Low battery indicator
- Easy-clean transducer for improved infection control

#684-D920-P

Huntleigh Sonicaid™ FD1 Advanced Fetal Doppler

- Advanced real-time auto-correlation fetal heart rate processing
- Active noise reduction for crystal-clear fetal heart sounds
- 2MHz waterproof transducer suitable for use in a water birthing environment
- Advanced power management with auto switch-off to conserve battery life
- Long robust coiled cable enables optimum transducer position in all circumstances

#684-FD1-P

Huntleigh Dopplex® D900 Non-Directional Vascular Doppler

- Clear audio sounds of blood flow or fetal heart
- Enhanced battery management
- Compatible with the complete range of vascular probes
- Large carry bag and headphones included

#684-D900-P   doppler

Verruca-Freeze™ 65 Freeze Kit

Non-flammable, odorless alternative to liquid nitrogen that freezes lesions to an effective temperature up to -94°F (-70°C). 3-6 second spray freezes for 20-30 seconds. CryoCones® in 5 convenient sizes and CryoBuds® in 3 sizes limit the freeze to the lesion being treated.

#533-CVFK65	complete kit with 162ml canister	**sold as each**
#533-CVFC65	162ml canister (65 freezes)	**sold as each**
#533-BUDS	CryoBuds®, small (for 3mm lesions)	**sold as pack of 30**
#533-BUDM	CryoBuds®, medium (for 5mm lesions)	**sold as pack of 30**
#533-BUDL	CryoBuds®, large (for 9mm lesions)	**sold as pack of 30**
#533-TCONES	CryoCones®, soft-tipped reusable	**sold as set of 5**

Histofreezer® Portable Cryosurgical System

• Indicated for 9 types of lesions

Kit contains:
• 170ml canister
• 30 small (2mm) applicators
• 30 large (5mm) applicators

#933-2879100091

CryoOmega® Disposable Cryosurgical Device

• Continuous direct spray of liquid nitrous oxide (-89°C/-127°F) produces clinically effective freezing versus canister-based systems
• Pinpoint precision prevents destruction of healthy tissue
• Activate internal cartridge once and the device is ready for use. No time wasted on pre-procedure tip saturation, filling of cryogen reservoirs, etc. No additional accessories or cartridges needed. Simply aim and spray!
• Simply dispose of the entire unit with normal medical waste when the internal nitrous oxide cartridge is empty
• Single unit

#450-9034000

Miltex® CryoSolutions®

• Rapid freezing (-128°F/-89°C) in a small, self-contained unit
• Autoclavable glass tips
• Controlled temperature helps reduce treatment time
• Cleanable and sterilizable

#162-33510	complete set; includes unit with standard 1mm wide tip, tip protector, one cartridge (23.5g N_2O), metal pin, user manual, and plastic case
#162-33511	standard, 1mm wide glass tip
#162-33512	2mm wide glass tip
#162-33513	3mm wide glass tip
#162-33514	4mm wide glass tip
#162-33515	gynecology tip, non-flexible, 13cm long
#162-33516	10-pack of cartridges (23.5g N_2O) with threaded safety valve
#162-33517	4-pack of cartridges (23.5g N_2O) with threaded safety valve

Tinget Steam Sterilizer

- Easy programming for selecting different cycles whether it is for solid instruments, wrapped or unwrapped, textile or liquid
- Safety features that prevent the door from being opened until the cycle is complete. Sensors to detect abnormal temperature or pressure in the chamber
- Three shelves for loading of instruments
- Easy filling of distilled water tank and ease of draining both the used and unused distilled water
- Standard USB port for inserting flash drive to fully record each cycle. No bulky printers or paper to contend with
- Chamber size: 9" x 14"

#638-STE-16L-E

Ritter M9 UltraClave® Automatic Sterilizer

- 9" x 15" chamber
- Exclusive automatic-opening door for ease of use and a quick drying time
- Steam–Flush Pressure Pulse Air Removal System ensures proper steam penetration
- Self-program controls enable you to create different cycle parameters to meet specific instrument processing needs
- Pre-programmed controls for convenience

#144-M9-022

Ritter M3 UltraFast® Automatic Sterilizer

Everything you need in an autoclave. Sterilize unwrapped instruments in just 6 minutes and pouched instruments in just over 10, with the touch of a button. Dries instruments in as quickly as 25 minutes.

#144-M3-003

Ritter M11 UltraClave® Automatic Sterilizer

Same benefits as the M9 model, with a larger chamber (11" x 18"), for increased capacity.

Tuttnauer® EZ Series Automatic Autoclaves

The Fully Automatic Autoclave. With the simplicity of one touch design all your sterilization and drying needs are fulfilled. The Tuttnauer fully automatic autoclaves will fill, sterilize, exhaust and dry at the touch of a button.

#594-EZ9   Chamber size: 9" x 18"
#594-EZ10   Chamber size: 10" x 19"

3M Attest™ Rapid Readout Biological Indicators

• For 270°F/132°C gravity steam sterilizers
• One-hour readout
#800-1291

sold as box of 50

3M Attest® Biological Indicator

Designed for monitoring steam sterilization processes.

#800-1262   **sold as box of 100**
#800-1262P   **sold as box of 25**

RS120A Rotosealer

• Offers practical means for monitoring of sealing parameters
• Temperature is adjustable from 100°C to 200°C, with a tight tolerance of ±1% only, and its control is in conformance to DIN 58953-7
• The actual temperature is seen on the display
• Default setting for the sealing pressure is at 100N ±5%, but depends on the thickness of the material to be sealed. The upper limit is adjustable
• The display shows a warning and a sound alarms upon incorrect values

#164-RS120AV

Midmark® Speed-Clean Sterilizer Cleaner

• Removes hard water build-up and scale deposits from Midmark and Ritter autoclaves and sterilizers
• For use with the M9 UltraClave and M11 UltraClave
• Concentrated
#144-002-0396-05   16oz bottle

3M Attest™ Rapid Readout Biological Indicators

• For 250°F/121°C gravity and 270°F/132°C vacuum assisted steam sterilizers
• Three-hour readout
#800-1292

sold as box of 50

3M Comply™ SteriGage Steam Chemical Integrator

Class 5 integrating indicator for use in determining whether the sterilization process conditions were met inside each pack. Can be used in all 250-275°F sterilization cycles.

Pre-Soaks and Cold Sterilization

Accel® CS 20 Instrument Chemosterilant

Accel CS 20 is designed for use in Healthcare and Personal Services when sterilization in a rapid contact time is required. Accel CS 20 achieves chemical sterilization and high level disinfection in 20 minutes.

- Sporicidal (20 min at 20°C)
- Tuberculocidal (20 min at 20°C)
- Fungicidal (20 min at 20°C)
- 4L bottle

#909-CS204L

BM-28 PLUS™ Activated 2% Glutaraldehyde Disinfectant

Ready for use with no mixing necessary, this shelf-stable solution will disinfect in 10 minutes and sterilize in 10 hours. Contains a corrosion inhibiting agent. Lemon scented. Broad spectrum killing properties. 4L bottle.

#009-28+

Cidex OPA High-Level Disinfectant

3.8L bottle

#421-20394

Glutacide® Sterilizing and Disinfecting Solution

- Pre-activated and achieves high-level disinfection in 10 minutes at 20°C
- Validated for use and reuse for up to 30 days, or 60+ cycles in an automated endoscope reprocessor (AER)
- The only disinfectant tested and proven effective against bacterial biofilms
- 3.8L bottle

#917-GRB38L

D-Cide™ 2% High-Level Disinfectant

3.8L bottle. Ready-to-use.

#917-PDC38L

Enzyclean® Protease Enzyme Detergent and Pre-Soak

- Neutral pH
- Phosphate-free
- Rust inhibiting
- Low suds
- 3.8L bottle

#042-EBL1

AprilGuard Powdered Organisol Detergent

Effectively dissolves, suspends, and digests dried blood, serum, tissue samples, culture nutrients, and other proteinaceous matter. One ounce turns one gallon of tap water into unequaled soaking solution. 4lb canister with scoop.

#067-002900

Isagel® Hand Sanitizing Gel

• Kills 99.9% of most microorganisms in less than 15 seconds
• Effective against H1N1 virus
• Added moisturizers
• CHG and latex glove compatible

#310-1644   115mL bottle
#310-1645   621mL bottle with pump

Performance Guaranteed

Both the LTX and ADX systems carry the Gojo Lifetime Performance Guarantee—a dependability promise that even includes the batteries in the LTX touch-free system.

Smart, Trouble-Free Electronics

Gojo LTX dispensers use patent-pending technology to optimize energy use. The dispensers are engineered to use a minimal amount of energy per actuation, eliminating the need to change batteries during the life of the dispenser in most installations. The batteries are included and pre-installed, allowing for easy activation of the system.

Purell® hand sanitizers are fragrance- and dye-free.

Instrument Cleaning Guide

Spaulding's Classification of Medical Equipment/Devices and Required Level of Processing/Reprocessing

Classification	Definition	Level of Processing/Reprocessing
Critical Equipment/Device	Equipment/Device that enters sterile tissues, including the vascular system	Cleaning followed by Sterilization
Semi-critical Equipment/Device	Equipment/Device that comes in contact with non-intact skin or mucous membranes but does not penetrate them	Cleaning followed by High Level Disinfectant (as a minimum requirement). Sterilization is preferred
Noncritical Equipment/Device	Equipment/Device that touches only intact skin and not mucous membranes, or does not directly touch the client/patient/resident	Cleaning followed by Low Level Disinfectant (in some cases, cleaning alone is acceptable)

Cleaning

Never keep used/dirty instruments in a dry container. Make sure BLOOD and DEBRIS don't have a chance to dry. If you are unable to process them right away use:

An Enzymatic Cleaner to help to remove organic material

042-EBL1   Enzyclean® instrument cleaner, pre-soak single, 3.8L

Or a neutral pH detergent:

042-B1   Low suds instrument cleaner, 1 gallon

Always rinse off any chemicals with distilled water.

ULTRASONIC CLEANING is usually recommended as the best way to clean surgical instruments.

144-M150-001   Ultrasonic cleaner, 1.5 gallon, 11½" x 6" x 6"

MANUAL CLEANING

Use stiff brushes to make sure all visible dirt is removed.

444-10-1651-X Nylon bristles instrument brush

Use a surgical instrument cleaner

042-AW1B   Low foaming alkaline instrument cleaner, 1 gallon
067-002900   Organisol instrument cleaner, 4lb container, with scoop

Make sure everything looks sharp and all moving parts are working correctly.

Atlantic Canada: 800-565-0765
Quebec: 855-660-7750
www.stevens.ca

Sterilization

It is recommended that all surgical instruments be autoclaved, if possible.

144-M11-022   Midmark M11 autoclave, 11" x 18" chamber

Always use distilled water in your autoclave.

320-100400902   Distilled water, 4L, case of 4

Lubricate all moving parts.

042-T2   Instrument lubricant, 1 gallon

Use self-seal pouches to autoclave and store your instruments.

164-SS1   Self-seal clear pouch, 3.5" x 8", box of 200
164-SS2   Self-seal clear pouch, 3.6" x 10", box of 200
164-SS4   Self-seal clear pouch, 5" x 10", box of 200
(Other sizes available)

Use chemical or biological indicators regularly to ensure your autoclave is working properly.

800-1243B   Steam sterilization integrator, bag of 100
800-1262P   Attest® biological indicators, box of 25
800-116   Attest® biological indicator incubator
800-115C   Biological indicator monitoring starter kit. Consists of indicator
tape, biological indicators, incubator, chemical integrators,
log book, inservice video and wall chart.

High Level Disinfection

For instruments that can't be autoclaved or only require High Level Disinfection (HLD), use a chemosterilant soak.

Check with your Territory Manager to see what cold soak is right for you.

Keep in mind safety, efficacy, compatibility, and the environment.

Accelerated Hydrogen Peroxide

Not recommended for instruments with brass, copper, or tungsten carbine.

Prevention—5-minute HLD for respiratory and plastics. 6-hour chemosterilant
909-HLD54L   4L bottle

CS20—20-minute chemosterilant
909-CS204L   4L bottle

65

Aldehydes

917-GRB38L Glutacide 2% high level disinfectant, 3.8L bottle
   HLD 10 minutes at 20°C / sterilization 10 hours at 20°C

917-PDC38L D-CIDE 2% high level disinfectant, 3.8L
   HLD 20 minutes at 20°C / sterilization 10 hours at 20°C

421-20394 Cidex OPA, 3.8L
   HLD 10 minutes at 20°C

Environmental Infection Control

Wipe down all surfaces regularly.

907-ACCWIP-TB10X10	TB Accel 0.5% hydrogen peroxide, tub of 60 wipes
917-BOE1LS	Odour eliminator and stain remover, 1L spray
507-PO10-IP70	Isopropyl alcohol, clear, 500mL

Don't forget to clean your stethoscope and blood pressure cuffs.

Tape Measure

- 60" / 150cm
- Plastic case with automatic roll-up when not in use

#197-58-6150

Suture Removal Kit

Kit contains:
- 1 x Littauer wire scissors
- 1 x wire forceps
- 1 x 4" x 4", gauze

#626-7100

Ear Syringe

Automatic 2oz complete ear syringe. Comes with leather case.

#197-A20-630

Welch Allyn Ear Wash System

- Eliminates messy outflow by automatically dislodging, removing, and disposing of cerumen
- Transparent tip seals tightly and directs outflow back to sink and away from you and your patient
- Features include: water pressure regulation chamber, water flow actuator, temperature sensor, and disposable transparent eartips
- Safe, reduces typical side effects like vertigo, nausea, and tympanic membrane damage

#111-29350CAN-D

Aluminum Alloy Tuning Fork

#635-112-110	C-128 (weighted)
#635-112-114	C-256 (weighted)
#635-112-118	C-512

Microscope Slides

- 3" x 1" (7.6cm x 2.5cm)
- Single frosted glass

#024-LAB-034

sold as box of 72

Wrapped Dressing Tray

Sterile and latex-free.
Contents (wrapped in a hospital wrap): 1 x 3-compartment tray; 6 x prep balls; 4 x 4" x 4", 8-ply gauze; 2 x plastic forceps; 1 x towel with poly liner; 1 x waste bag with twist tie; and 1 x plastic forceps in the last fold of the hospital wrap.

#626-3042

Vantage Metal Ear Syringe

- Complete with one short bulbous tip, one tapered tip, and shield
- Chrome

#162-V919-381 2oz capacity
#162-V919-385 4oz capacity

Taylor Percussion Hammer

- Solid rubber head
- Chrome-plated brass handle

#635-112-200

Queen Square Percussion Hammer

- Flexible nylon handle
- End point for neurology test
- Black rubber ring

#635-112-212   9" handle
#635-112-218   12" handle

Stevens: 140 Years in Canada

The Stevens Company is proud to be celebrating our 140th year of operation in Canada. Our first Canadian office opened its doors on Wellington Street in Toronto in 1874, paving the way for expansion across Canada. Today, we have six distribution centres from coast-to-coast and are still owned and operated by the Stevens family.

Zoll AED Plus® Automated External Defibrillator

Features Real CPR Help®: a tool that is able to actually see what you are doing and provide feedback to help you do it well. Audio and visual prompts help you rescue with confidence and clarity, unmatched by any other AED (Automated External Defibrillator).
• Not pushing hard enough? It will tell you when to push harder
• Not pushing fast enough? A metronome will lead you to the right rate
• Zoll AED will even show you the depth of each compression — in real time

#724-20100000102011060   defibrillator
